Education

Tishik International University - College of Science -Information Technology Department : Sophomore Year. Anticipated graduation in 2024.

Experience

I would say that when i started learning how to cod for the first time i didn't really enjoy it,because it was too hard for me.After researching and practicing a lot i found out that it's one of my most favorite things to do especially when i have free time because i can study what ever coding language i want.I think i'm a very hardworking person especially for things i like, most of nights i stay up late just to solve any issues with my code or any problem in general.

Career

Currently working on several IT projects including website designs and process coding.

Programming languages

Web design	Framework	Other languages
1-Html	1-Flutter	1-Dart
2-Css		2-C++
3-Javascript
